Bug Bounty RoadMap

In this roadmap, you will learn the complete and comprehensive path to becoming a bug hunter.

I am an experienced security specialist

First Step

- **Technical**

Here you should be familiar with the basics of operating systems and network.

A+
comptia.org

Network+
comptia.org

Linux Essentials
udemy.com

Windows Essentials
udemy.com

Second Step

- **Programming**

Every hacker should be familiar with the programming languages and frameworks I have listed here.

C Lang
coursera.org

Python3
coursera.org

HTML 5
coursera.org

CSS3
coursera.org

JavaScript
coursera.org

PHP
coursera.org

SQL
coursera.org

Laravel 8
coursera.org

TypeScript

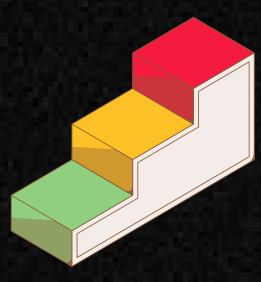
Final Step

- **Ready To Go**



Now you are ready! The time has come to study penetration testing courses and books that are mentioned in this section, and finally practice in the relevant laboratories.
